**Ted  
Smudde**

Ted Smudde, Senior Marketing Manager for Ivoclar Vivadent, is a leading authority in the field of removable prosthodontics. As past Director of Candulor USA and Vice President of Geneva Dental, he traveled extensively, presenting to both dentists and dental technicians.

Mr. Smudde was first introduced to dentures in the 1970s when his father, Dr. Roy A. Smudde, researched and taught at the Swissedent® Foundation with Dr. John P. Frush. Ted received his initial training as a denture technician while working in his father's lab, where he became familiar with Swissedent® esthetics.

Recently, Ted has been responsible for creating the procedures, tools, and publications for "Better Communication between the Clinician and Lab Technician." He continues to lecture at various schools and lab organizations throughout the US including UCLA, USC, and Loma Linda Universities.
